

Dear _____
I am writing in regards to the proposed Pyman road

pit. I have lived here for six years. I'm almost thirteen. I don't like the idea of living across from a huge gravel pit, with all its noise, dust and traffic. How would you like to live like that? Many Joe Rich residents would be affected by the pit. Also, trucks going up and down the highway would make it more dangerous to drive. Highway 33 is already unsafe. As well, the noise of pit would be awful. All those machines at work would create an awful din. And with all that dust, the air quality would be terrible. Also, the white tail deer's home would be threatened.

All in all, I hope you see that this pit is a bad idea. Sincerley, Colin Allen.
