Targa Bambina 2010

Targa Canada West is the organizer of Targa Bambina, a proposed one day motorsport event on closed public roads in Summerland-Faulder area, West Kelowna-Crystal Mountain area and Joe Rich-Big White area to be held on May 24th, 2010.

WE NEED YOUR INPUT. Targa Canada West relies upon community support in order to receive approval by provincial and local governments. We will hold a series of public information sessions in areas where the event is planned to take place. Event organizers will provide information about event routes, traffic and safety plans. Information session details will be advertised locally while the schedule of Public Information Sessions in your area is listed below.

HOW IS THE EVENT RUN? Targa Bambina competition occurs in 8 segments or stages throughout the day, totaling up to 100 km. One competition car is released into a stage at thirty second intervals to battle against the clock. Each stage is closed to local traffic by experienced motorsport officials. Depending on the number of competition cars entered in the event, road closures could last from 3-8 hours. Closures of 6-8 hours will include at least one opening for local traffic access, while Emergency vehicles and personnel will have access at ALL times.

WHO COMPETES IN TARGA? Targa is open to anyone and everyone with an interest in challenging themselves on local roads. The event attracts drivers and co-drivers from novice to expert.

IS TARGA SAFE? Targa events have an excellent safety record. To ensure the safety of the public, volunteers and competitors, Targa Bambina planning includes road assessments, application to government for temporary road closure during the event, stringent safety equipment requirements, and enforcement of speed limits for each competition class, monitored by radar.

CONTACT INFORMATION: To find out more about Targa Bambina including how to provide your input visit www.targacanadawest.com
